Discover True Sound from the Inside

TIME DOMAIN AUDIO SYSTEM

---

**TD510 / TD508II**

**FUJITSU TEN**

## The Essence of Pure Sound

To feel pure sound you need to experience it from the inside. Eclipse TD's trademark design accurately reproduces waveforms and the exact space where the music was created. Each speaker follows the concept of 'reproducing the intentions of artists, beyond the boundaries of space and time' so you feel you are there, immersed in the vocal and instrumental sounds; at the very centre of an orchestra's delicate harmony and thunderous resonance. The purity of sound allows the listener to enjoy the music in its original form and even sense that the speakers themselves disappear, leaving only the true unadulterated sound of the artist's performance.

## A New Sound and Design Aesthetic

The new Eclipse TD series combines form and function and is available in black, white and silver. They fit in with any interior design concept and complement conversation rather than overwhelm it. They are subtle enough to blend in, yet bold enough to suit an atmosphere that sets trends, not follows them.

## The Ultimate in Home Cinema Quality

During the film-making process, engineers design an omni-dimensional sound. Conventional systems deliver sound hampered by enclosure colouration which is multiplied in each channel. Only by adopting the Time Domain principal, are Eclipse TD speakers able to reproduce these waveforms faithfully, the way the engineers intended them to be heard. They surpass commercial cinemas and give you the true experience at home.

## Exceptional Multi Channel Installation

The TD510 and TD508II are mountable and feature a variable angle pivot which brings flexibility to the projection of the speakers in any realistic environment. Using identical speakers will give you the optimal multi channel experience. Free from enclosure colouration, these speakers will also give you the flexibility to combine the models.

## Testified by World Renowned Artists

The superior spatial reproduction capabilities of the Eclipse TD series are praised by leading musicians, producers and engineers who use these speakers both at concerts and when recording. The pure sound achieved by minimising undesirable acoustic characteristics gives artists the confidence to put their own emotional touches into the music and allows performances to be heard the way the artists intended. The Eclipse TD series lets you experience the world the artists created to the same standards they demand.

## The Perfect Space for True Sound

### A Lifestyle Experience

Eclipse TD speakers allow you to configure your audio system in an ideal form to complement your lifestyle without compromising it. Their subtle and contemporary design naturally adapts to blend into any décor and can be integrated into almost any space at any angle, giving you total freedom to create your ideal listening environment.

### Performing Elegance

The TD510 and TD508II speakers look as elegant as they perform. They will enhance both your visual and audio experience and heighten your enjoyment of each musical performance.

**TD510<sub>SV</sub>**  
**TD510<sub>BK</sub>**  
**TD510<sub>WH</sub>**

**TD510 Speaker**

Unit: Ø10cm Full Range  
 Input Resistance (Rating / Max): 20W / 40W  
 Impedance: 6Ω  
 Efficiency / Sensitivity: 83dB/W-m  
 Reproducible Frequency Band: 45Hz-20kHz (-10dB)  
 Maximum Dimensions: W240 x H362 x D345 (mm)  
 Mass: 9.3kg  
 Antimagnetism: Yes

**TD508II<sub>SV</sub>**  
**TD508II<sub>BK</sub>**  
**TD508II<sub>WH</sub>**

**TD508II Speaker**

Unit: Ø8cm Full Range  
 Input Resistance (Rating / Max): 12W / 24W  
 Impedance: 8Ω  
 Efficiency / Sensitivity: 81dB/W-m  
 Reproducible Frequency Band: 55Hz-20kHz (-10dB)  
 Maximum Dimensions: W160 x H242 x D225 (mm)  
 Mass: 2.8kg  
 Antimagnetism: Yes

**CB1**

**CB1 Ceiling / Wall Bracket for TD510 / TD508II**

Material: Hard Polystyrene / Steel  
 Weight: 120g  
 Maximum Dimensions  
 Spacer: Ø110 x thickness 5 (mm)  
 Bracket: Ø131 x thickness 1.6 (mm)

example

**D6<sub>SV</sub>**  
**D6<sub>WH</sub>**

**D6 Speaker Stand for TD510**

Material: Steel / Aluminium  
 Weight: 12.6kg  
 Maximum Dimensions: W340 x H710 x D355 (mm)

**D3II<sub>SV</sub>**  
**D3II<sub>WH</sub>**

**D3II Speaker Stand for TD508II**

Material: Steel / Aluminium  
 Weight: 8.2kg  
 Maximum Dimensions: W316 x H740 x D331 (mm)

Testimonials from renowned artists and engineers, technical data, stockists and further information on Eclipse TD can be found at
